Subject index

Adatoms
On the determination of zero charge potentials of platinum group metals in the presence of foreign metal adatoms on the surface (Podlovchenko et al.) 49
Adsorption data analysis
Thermodynamic methods for analysis of adsorption data of organic compounds at electrified interfaces (Review) (Nikitas, Sotiropoulos) 1
Amino compounds
Radiotracer study of the adsorption of amino compounds at a smooth gold electrode (Horányi, Orlov) 239
Ammonium fluoride
A rotating ring–disc study of the photodissolution of n-Si in ammonium fluoride solutions (Stumper, Peter) 325
Ascorbic acid
Electrocatalysis at a microdisk electrode modified with a redox species (Dong, Che) 103

o-Benzoquinone
A reaction model for the ECECE mechanism. Part III. Electroreduction of *o*-benzoquinone dioxime at Pt/Bi(upd) and determination of the rate constants of the coupled chemical reactions (Kokkinidis et al.) 263
Bilayers
Electroactive bilayers employing conducting polymers. Part III. Kinetic vs. diffusional control of outer layer switching rate (Hillman, Mallen) 159
2,2′-Bipyridine
Electrochemistry of *cis*-diaquoruthenium(II) complexes with 2,2′-bi-pyridine and related ligands at edge plane pyrolytic graphite electrodes. Characterization of reversible Ru(VI/V), Ru(V/IV), Ru(IV/III) and Ru(III/II) couples and catalytic oxidation by Ru(VI) (Che et al.) 303
Bismuth
A reaction model for the ECECE mechanism. Part III. Electroreduction of *o*-benzoquinone dioxime at Pt/Bi(upd) and determination of the rate constants of the coupled chemical reactions (Kokkinidis et al.) 263

Cadmium(II) ions
Halide-induced adsorption of lead(II) and cadmium(II) from concentrated electrolyte solutions (Zelić, Branica) 227
Catalysis
Attempts to immobilize catalytically active heteropolytungstates on the surfaces of electrodes (Shiu, Anson) 115
Electrocatalysis at a microdisk electrode modified with a redox species (Dong, Che) 103
Electrochemistry of *cis*-diaquoruthenium(II) complexes with 2,2′-bipyridine and related ligands at edge plane pyrolytic graphite electrodes. Characterization of reversible Ru(VI/V), Ru(V/IV), Ru(IV/III) and Ru(III/II) couples and catalytic oxidation by Ru(VI) (Che et al.) 303
Ceramic membranes
The photoelectrochemical properties of Nb-doped TiO_2 semiconductor ceramic membrane (Kikkawa et al.) 91
Cobalt
Anodic oxidation of hydrazine on glassy carbon modified by macrocyclic transition metal complexes. Part 1. Cobalt protoporphyrin dimethyl ester modified electrode (Wang, Cao) 147
Conducting polymers
Electroactive bilayers employing conducting polymers. Part III. Kinetic vs. diffusional control of outer layer switching rate (Hillman, Mallen) 159
Copper
A comparative second harmonic study of

Cu(111) in UHV and in solution (Bradley et al.) 319

Diffusional control
Electroactive bilayers employing conducting polymers. Part III. Kinetic vs. diffusional control of outer layer switching rate (Hillman, Mallen) 159

Diffusion coefficients
Effects of interconversion and electron transfer on voltammetric responses for two-component systems with differing diffusion coefficients (Blauch, Anson) 313

Dioxime
A reaction model for the ECECE mechanism. Part III. Electroreduction of *o*-benzoquinone dioxime at Pt/Bi(upd) and determination of the rate constants of the coupled chemical reactions (Kokkinidis et al.) 263

Disc electrodes
A rotating ring–disc study of the photodissolution of n-Si in ammonium fluoride solutions (Stumper, Peter) 325

ECECE mechanism
A reaction model for the ECECE mechanism. Part III. Electroreduction of *o*-benzoquinone dioxime at Pt/Bi(upd) and determination of the rate constants of the coupled chemical reactions (Kokkinidis et al.) 263

Electrified interfaces
Structural information pertaining to non-aqueous electrified interfaces. 2-D solvation of potassium with nitriles on the Au(100) surface (Solomun et al.) 353
Thermodynamic methods for analysis of adsorption data of organic compounds at electrified interfaces (Review) (Nikitas, Sotiropoulos) 1

Films
Cation and anion insertion in separate processes in poly(pyrrole) composite films (Lien et al.) 333

Flavin
Electrochemistry of polypyrrole flavin electrodes (Battaglini et al.) 347

Germanium
Study of the underpotential deposition of germanium onto polycrystalline palladium surfaces (Bakos et al.) 293

Glassy carbon
Anodic oxidation of hydrazine on glassy carbon modified by macrocyclic transition metal complexes. Part 1. Cobalt protoporphyrin dimethyl ester modified electrode (Wang, Cao) 147

Glucose
In situ infrared studies of glucose oxidation on platinum in an alkaline medium (Bae et al.) 131

Gold
Radiotracer study of the adsorption of amino compounds at a smooth gold electrode (Horányi, Orlov) 239
Structural information pertaining to non-aqueous electrified interfaces. 2-D solvation of potassium with nitriles on the Au(100) surface (Solomun et al.) 353
Transmembrane rectified electron transfer through electroactive ultra-thin films on gold electrodes (Kunitake et al.) 341

Halides
Halide-induced adsorption of lead(II) and cadmium(II) from concentrated electrolyte solutions (Zelić, Branica) 227

Hydrazine
Anodic oxidation of hydrazine on glassy carbon modified by macrocyclic transition metal complexes. Part 1. Cobalt protoporphyrin dimethyl ester modified electrode (Wang, Cao) 147

Imidazole
The use of Surface Enhanced Raman Scattering (SERS) to probe the interaction of imidazole with the silver electrode surface (Bukowska et al.) 251

Infrared spectroscopy
In situ infrared studies of glucose oxidation on platinum in an alkaline medium (Bae et al.) 131

Interfaces
On the theory of the integer and half-integer integral and derivative linear potential sweep voltammetry for a totally irreversible interfacial reaction (Jin et al.) 37

Kinetic control
Electroactive bilayers employing conducting polymers. Part III. Kinetic vs. diffusional

control of outer layer switching rate (Hillman, Mallen) 159

Kynurenine
New aspects of the chemistry and mechanism of electrochemical reduction of kynurenine at mercury electrodes in aqueous media (Bond et al.) 173

Lead dioxide
Potentiodynamic behaviour of β-lead dioxide in neutral media at positive potentials (Munichandraiah) 199

Lead oxide
A photoelectrochemical study of the reduction of electrodeposition α-PbO_2 in ethanoate solution (Campbell, Peter) 213

Lead(II) ions
Halide-induced adsorption of lead(II) and cadmium(II) from concentrated electrolyte solutions (Zelić, Branica) 227

Membranes
Transmembrane rectified electron transfer through electroactive ultra-thin films on gold electrodes (Kunitake et al.) 341

Mercury
New aspects of the chemistry and mechanism of electrochemical reduction of kynurenine at mercury electrodes in aqueous media (Bond et al.) 173

Microdisk electrode
Electrocatalysis at a microdisk electrode modified with a redox species (Dong, Che) 103

Nernstian plots
Non-ideal behavior of Nernstian plots from spectroelectrochemistry experiments (Kristensen et al.) 61

Niobium
The photoelectrochemical properties of Nb-doped TiO_2 semiconductor ceramic membrane (Kikkawa et al.) 91

Nitriles
Structural information pertaining to non-aqueous electrified interfaces. 2-D solvation of potassium with nitriles on the Au(100) surface (Solomun et al.) 353

Organic compounds
Thermodynamic methods for analysis of adsorption data of organic compounds at electrified interfaces (Review) (Nikitas, Sotiropoulos) 1

Palladium
Electrochemical charging of Pd rods (Szpak et al.) 273
Study of the underpotential deposition of germanium onto polycrystalline palladium surfaces (Bakos et al.) 293

Photoelectrochemistry
A photoelectrochemical study of the reduction of electrodeposition α-PbO_2 in ethanoate solution (Campbell, Peter) 213

Platinum
In situ infrared studies of glucose oxidation on platinum in an alkaline medium (Bae et al.) 131
A reaction model for the ECECE mechanism. Part III. Electroreduction of *o*-benzoquinone dioxime at Pt/Bi(upd) and determination of the rate constants of the coupled chemical reactions (Kokkinidis et al.) 263

Platinum group metals
On the determination of zero charge potentials of platinum group metals in the presence of foreign metal adatoms on the surface (Podlovchenko et al.) 49

Polyvinylferrocene
Electrocatalysis at a microdisk electrode modified with a redox species (Dong, Che) 103

Porphyrin
Anodic oxidation of hydrazine on glassy carbon modified by macrocyclic transition metal complexes. Part 1. Cobalt protoporphyrin dimethyl ester modified electrode (Wang, Cao) 147

Potassium
Structural information pertaining to non-aqueous electrified interfaces. 2-D solvation of potassium with nitriles on the Au(100) surface (Solomun et al.) 353

Potentiodynamic behaviour
Potentiodynamic behaviour of β-lead dioxide in neutral media at positive potentials (Munichandraiah) 199

Pyrolytic graphite
Electrochemistry of *cis*-diaquoruthenium(II) complexes with 2,2′-bipyridine and related ligands at edge plane pyrolytic graphite electrodes. Characterization of reversible Ru(VI/V), Ru(V/IV), Ru(IV/III) and

Ru(III/II) couples and catalytic oxidation by Ru(VI) (Che et al.) 303

Pyrrole
Cation and anion insertion in separate processes in poly(pyrrole) composite films (Lien et al.) 333
Electrochemistry of polypyrrole flavin electrodes (Battaglini et al.) 347

Radiotracer study
Radiotracer study of the adsorption of amino compounds at a smooth gold electrode (Horányi, Orlov) 239

Raman spectroscopy
The use of Surface Enhanced Raman Scattering (SERS) to probe the interaction of imidazole with the silver electrode surface (Bukowska et al.) 251

Review
Thermodynamic methods for analysis of adsorption data of organic compounds at electrified interfaces (Review) (Nikitas, Sotiropoulos) 1

Rhodium
On the determination of zero charge potentials of platinum group metals in the presence of foreign metal adatoms on the surface (Podlovchenko et al.) 49

Ring electrodes
A rotating ring–disc study of the photodissolution of n-Si in ammonium fluoride solutions (Stumper, Peter) 325

Ruthenium
Electrochemistry of *cis*-diaquoruthenium(II) complexes with 2,2′-bipyridine and related ligands at edge plane pyrolytic graphite electrodes. Characterization of reversible Ru(VI/V), Ru(V/IV), Ru(IV/III) and Ru(III/II) couples and catalytic oxidation by Ru(VI) (Che et al.) 303

Second harmonics
A comparative second harmonic study of Cu(111) in UHV and in solution (Bradley et al.) 319

Semiconductor
The photoelectrochemical properties of Nb-doped TiO_2 semiconductor ceramic membrane (Kikkawa et al.) 91

SERS
The use of Surface Enhanced Raman Scattering (SERS) to probe the interaction of imidazole with the silver electrode surface (Bukowska et al.) 251

Silicon
A rotating ring–disc study of the photodissolution of n-Si in ammonium fluoride solutions (Stumper, Peter) 325

Silver
On the determination of zero charge potentials of platinum group metals in the presence of foreign metal adatoms on the surface (Podlovchenko et al.) 49
The use of Surface Enhanced Raman Scattering (SERS) to probe the interaction of imidazole with the silver electrode surface (Bukowska et al.) 251

Spectroelectrochemistry
Long optical pathlength thin-layer spectroelectrochemistry: study of homogeneous chemical reactions (Gui et al.) 73
Non-ideal behavior of Nernstian plots from spectroelectrochemistry experiments (Kristensen et al.) 61

Sweep voltammetry
On the theory of the integer and half-integer integral and derivative linear potential sweep voltammetry for a totally irreversible interfacial reaction (Jin et al.) 37

Switching rate
Electroactive bilayers employing conducting polymers. Part III. Kinetic vs. diffusional control of outer layer switching rate (Hillman, Mallen) 159

Titanium
The photoelectrochemical properties of Nb-doped TiO_2 semiconductor ceramic membrane (Kikkawa et al.) 91

Tungstates
Attempts to immobilize catalytically active heteropolytungstates on the surfaces of electrodes (Shiu, Anson) 115

Ultra-thin films
Transmembrane rectified electron transfer through electroactive ultra-thin films on gold electrodes (Kunitake et al.) 341

Underpotential deposition
Study of the underpotential deposition of germanium onto polycrystalline palladium surfaces (Bakos et al.) 293

Voltammetry
Effects of interconversion and electron transfer on voltammetric responses for two-component systems with differing diffusion coefficients (Blauch, Anson) 313

Zero charge potentials
On the determination of zero charge potentials of platinum group metals in the presence of foreign metal adatoms on the surface (Podlovchenko et al.) 49
